SUBJECT: Facility Accreditation  
Rm 7E 12 Headquarters (C)

The purpose of this memorandum is to provide official documentation for the accreditation of the Executive Registry as a Sensitive Compartmented Information Facility. This facility is authorized to store SI, TK and BYE material in closed and open configuration as required. Although this facility has been operational for many years and has been subjected to several surveys, no formal accreditation had ever been issued. This memorandum will correct this deficiency. (C)
